

STORM DRAINAGE PROJECT

Eastwood Road (near Cavalier Drive & King Arthur Drive)

This summer, the City will begin a storm drainage project that will impact the Gary Shell Cross-City Trail along Eastwood Rd. The purpose of the project is to alleviate the flooding problem within the area of Cavalier Drive and King Arthur Drive. The construction will require a portion of the trail in this vicinity to be temporarily closed.

The project is expected to begin in late June or early July and will take approximately nine months to complete.
