ADDENDUM NUMBER 1

Re-Bid Downtown Alley Improvements

ALLE-IH-0926

SEPTEMBER 10, 2026

To all holders of Bid Documents, please be advised of the following:

Question: What is expected of the contractor for the coordination with the businesses that use the alleys?

Answer: The city, not the contractor, will be responsible for determining the current needs of the adjacent businesses for the usage of the alleys during the construction period. The city will also be responsible for discussing practical alternatives to the business' usage of the alleys during construction. The city will work to reduce the businesses' usage of alleys to the maximum extent that it can.

The contractor will be responsible for all labor, equipment, and materials required to allow for the continuation of business services during the construction period. This might include, but is not limited to, construction of temporary access paths for deliveries, temporary removal and relocation of existing facilities within the alleys, temporary structure construction for ingress/egress out of the businesses during construction, etc. The line item in the bid schedule, named project coordination, is included in part for bidder's estimated costs associated with the providing the adjacent businesses assistance with continuing their operations during construction with as limited interruptions as possible.

Acknowledge receipt of this Addendum in the space provided in the Proposal. Failure to do so may disqualify the Bidder.

All other terms and conditions remain unchanged.

Daryle L. Parker, Purchasing Manager
