Discover the importance of insects as pollinators, the role they play in the ecosystem and view and insect collection in this interactive program with Sam Marshall from the Brunswick County Cooperative Extension.

- Please turn over -

Bats

Wed. July 11 Time: 8 pm -9 pm

Ages: 5/up **Cost:** \$5

Learn about our nighttime, bug-eating friends and discover some awesome adaptations of these mammals. We'll dispel some myths about bats and find out why we like to have them around at the park!

Alligators

Wed. July 25 Time: 6:30 pm -7:30 pm

Ages: 5/up **Cost:** \$5

Having changed little since the time of the dinosaurs, the alligator is a fascinating and amazing reptile. Learn about the biology and habits of alligators and take a look at a live alligator during this presentation by the N.C. Aquarium.

Birds of Prey

Wed. August 1

Two Shows: 6 pm – 7 pm or 7 pm – 8 pm

Ages: 5/up **Cost:** \$5

Get a closer look at live birds of prey from the Cape Fear Raptor Center. Several hawks and owls will be introduced as you learn about these amazing birds.

Night Hike

Wed. August 8 Time: 8:30 pm - 9:30 pm

Ages: 5/up **Cost:** \$5

Join us as we prowl the park after dark and clear up some misconceptions about night creatures such as bats and owls. We'll also discover how these animals are adapted to night life.
