Fair Housing Overview

Fair Housing laws make it illegal to discriminate in housing based on a person's race, color, gender, religion, national origin, disability, or familial status.

For persons with disabilities, the laws go one step farther and include provisions allowing for reasonable accommodations and modifications so that persons with disabilities can live in and enjoy housing and common areas.

- Provides quality rental choices for families, elderly residents, and for people with disabilities.
- Leverages funding to support the development of affordable housing.

- Help prevent homelessness and house the homeless.

Where does the money come from?

Each year the U.S. Department of Housing and Urban Development (HUD) awards the City of Wilmington a Community Development Block Grant (CDBG) and a HOME Investment Partnership grant.

Working with affordable housing developers, both non-profit and for-profit, the city has leveraged federal and state tax credits, private financing and other funds to support development of more than 500 units of affordable rental housing for elderly, disabled and low-to-moderate income families.

In addition to federal funds, City Council appropriates general funds to support the efforts of community-based non-profits serving low-income, at-risk populations, especially youth.

These federal and local funds leverage other public and private funds that might not otherwise be invested in the city. In FY2013, for every federal \$1 spent leveraged \$11 in other public and private funds.

USES OF FUNDS
